AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE FALL RIVER LINE

OCCUPYING THE
LONG ISLAND SOUND ROUTE
BETWEEN

Boston and New York

Has the finest quintette of great steamboats that the world has ever seen. The

Priscilla, Puritan, Plymouth, Pilgrim, and Providence

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 530 p.m.

No. 1. Ten days. Saratoga, Lake George, 2,130 miles from Buffalo to Duluth, and return on the steamer "North-Land" through the Great Lakes, Erie, Huron, St. Clair, and Superior.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles' ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

Hemenway Building, 10 Tremont Street, Room 29.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE FALL RIVER LINE

OCCUPYING THE
LONG ISLAND SOUND ROUTE
BETWEEN

Boston and New York

Has the finest quintette of great steamboats that the world has ever seen. The

Priscilla, Puritan, Plymouth, Pilgrim, and Providence

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 5:30 p.m.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE FALL RIVER LINE

OCCUPYING THE
LONG ISLAND SOUND ROUTE
BETWEEN

Boston and New York

Has the finest quintette of great steamboats
that the world has ever seen. The

Priscilla, Puritan, Plymouth, Pilgrim, and Providence

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 5.30 p.m.

The ocean sail of 722 miles from Boston to Baltimore via the inside route is both restful and charming in either July or August. The day at Old Point Comfort and Fortress Monroe is an agreeable change. The ride in an observation car over the Alleghany Mountains affords scenery not surpassed in Europe. The Auditorium Hotel in Chicago and the drives in either Lincoln or South Park give a delightful impression of the city. Then follows the splendid sail the entire length of Lake Michigan on the superb steamer "Manitou," first-class and "up to date" in every detail, 350 miles in twenty-four hours, stopping at Charlevoix and Harbor View. We reach Mackinac at noon, and now for two halcyon days at the Grand Hotel, with a glorious view overlooking the lake. A fascinating shore drive of twelve miles or a nine-mile inland drive. Excellent fishing. An excellent orchestra playing morning, evening, during meals, and at the Saturday night hop. Details from Mackinac on in later issue.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

The Æolian, Aeriol, Orchestrelle,

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE FALL RIVER LINE

OCCUPYING THE
LONG ISLAND SOUND ROUTE
BETWEEN

Boston and New York

Has the finest quintette of great steamboats that the world has ever seen. The

Priscilla, Puritan, Plymouth, Pilgrim, and Providence

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 5:30 p.m.

THIRD SEASON.

3 Ideal Outings

Personally conducted by
F. R. COMEE,
Music Hall,
Boston.

	1.	2.	3.
Boston	Leave July 2	July 15	August 19
	Arrive July 12	July 31	September 4

No. 1. Ten days. Saratoga, Lake George, 2,130 miles from Buffalo to Duluth, and return on the steamer "North-Land" through the Great Lakes, Erie, Huron, St. Clair, and Superior.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles' ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 530 p.m.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE FALL RIVER LINE

OCCUPYING THE
LONG ISLAND SOUND ROUTE
BETWEEN

Boston and New York

Has the finest quintette of great steamboats that the world has ever seen. The

Priscilla, Puritan, Plymouth, Pilgrim, and Providence

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 5:30 p.m.

THIRD SEASON.

3 Ideal Outings

Personally conducted by
F. R. COMEE,
Music Hall,
Boston.

	1.	2.	3.
Boston	Leave July 2	July 15	August 19
	Arrive July 12	July 31	September 4

No. 1. Ten days. Saratoga, Lake George, 2,130 miles from Buffalo to Duluth, and return on the steamer "North-Land" through the Great Lakes, Erie, Huron, St. Clair, and Superior.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles' ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

SEND FOR CIRCULARS.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

Music Hall,
Boston.

	1.	2.	3.
Boston	Leave July 2	July 15	August 19
	Arrive July 12	July 31	September 4

No. 1. Ten days. Saratoga, Lake George, 2,130 miles from Buffalo to Duluth, and return on the steamer "North-Land" through the Great Lakes, Erie, Huron, St. Clair, and Superior.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles' ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

and Pianola.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

Boston.

	1.	2.	3.
Boston	Leave July 2	July 15	August 19

No. 1. Ten days. Saratoga, Lake George, 2,130 miles from Buffalo to Duluth, and return on the steamer "North-Land" through the Great Lakes, Erie, Huron, St. Clair, and Superior.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles' ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

No. 1. Ten days. Saratoga, Lake George, 2,130 miles from Buffalo to Duluth, and return on the steamer "North-Land" through the Great Lakes, Erie, Huron, St. Clair, and Superior.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles' ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

SEND FOR CIRCULARS.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 5:30 p.m.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE FALL RIVER LINE

OCCUPYING THE
LONG ISLAND SOUND ROUTE
BETWEEN

Boston and New York

Has the finest quintette of great steamboats that the world has ever seen. The

Priscilla, Puritan, Plymouth, Pilgrim, and Providence

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 5:30 p.m.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles" ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

Twenty minutes by rail from Boston. Sixty trains daily. Hotel coaches meet trains each way. Four hundred feet above sea level. Beautiful rides, drives, and walks. Golf links, tennis courts, and ball grounds.

For plans and prices address:

F. W. GASKILL, Manager,
Telephone, 40 Melrose.
Melrose, Mass.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

THE ÆOLIAN

AND

THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.

THE FALL RIVER LINE

OCCUPYING THE
LONG ISLAND SOUND ROUTE
BETWEEN

Boston and New York

Has the finest quintette of great steamboats that the world has ever seen. The

Priscilla, Puritan, Plymouth, Pilgrim, and Providence

Are the largest, best equipped, safest, and handsomest steamboats ever constructed. This route is one of the most attractive and naturally beautiful traversed by any transportation agency in the world.

Trips of the Fall River Line are made throughout the year.

Each steamboat has its own orchestra, and the service on each member of the fleet is maintained at the highest possible standard.

Tickets via this route are on sale at all of the principal Ticket Offices in the United States.

From BOSTON. Trains, connecting with steamers at Fall River in 80 minutes, leave Park Square Station, New York, New Haven & Hartford Railroad (Old Colony System), daily at 6 p.m.

From NEW YORK. Steamers leave Pier 19, North River, foot of Warren Street, daily at 5:30 p.m.

THIRD SEASON.

3 Ideal Outings

Personally conducted by
F. R. COMEE,
Music Hall,
Boston.

	1.	2.	3.
Boston	Leave July 2	July 15	August 19
	Arrive July 12	July 31	September 4

No. 1. Ten days. Saratoga, Lake George, 2,130 miles from Buffalo to Duluth, and return on the steamer "North-Land" through the Great Lakes, Erie, Huron, St. Clair, and Superior.

Nos. 2 and 3. Sixteen days. Exactly alike. 700 miles' ocean sail to Norfolk and Baltimore. Over Alleghany Mountains and a day in Chicago. Up Lake Michigan and three days at Mackinac Island. 1,546 miles on steamer "North-West" to Duluth and return to Buffalo through the Great Lakes, Niagara Falls to Toronto. Across Lake Ontario, through the Thousand Islands, and down the St. Lawrence River to Montreal and Boston.

No country in the world can duplicate the journey of 1,065 miles in one steamer on fresh water from Buffalo to Duluth through the Great Northern Lakes. These "Ideal Outings" are not cheap trips, as they are too extensive, trip No. 1 covering 3,000 miles, Nos. 2 and 3, which are exactly alike, covering 4,000 miles, and with only one night in a sleeping-car. There need be no fear of seasickness, as frequent experience has proved the Great Lakes to be unusually smooth in July and August. We travel first-class in every way. The parties are strictly limited, as it is impossible to secure equally good accommodations for a large number. The fatigue of too steady travel is avoided by from one to three days' rest at Old Point Comfort, Chicago, Mackinac Island, Duluth, Niagara Falls, Saratoga, etc. The average temperature through the Great Lakes in midsummer is 60°. No tourist who has made the journey has yet expressed disappointment: on the contrary, all are amazed at its extent and beauty.

PIANOS.

The Æolian, Aeriol, Orchestrelle,
and Pianola.

THE ÆOLIAN AND THE PIANOLA FOR SUMMER HOMES.

At this season of the year we receive many orders for these instruments for Summer Residences, and therefore beg to call attention to our extensive assortment now on display, especially suited for this purpose.

The ÆOLIAN meets the requirements of country homes, furnishing, as it does, music suitable for every occasion. It practically takes the place of an orchestra—music for dancing—orchestral concerts,—in short, music of every style and description is always available.

The PIANOLA will appeal to many on account of the very little space it occupies. It will play any kind of a piano, and can also be used upon a rented piano without the slightest injury. For the above reasons it is bound to be very popular for small cottages.

We are glad to be able to announce that we can furnish PIANOLAS with no more than a week's delay, and, at times, the day the order is given.

Persons not familiar with these instruments are cordially invited to call at our warerooms and hear them, or a descriptive catalogue will be mailed free upon application.
